DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over Spelthann 5,610,234, in view of Fry et al. 4,614,680
3. Both references have been discussed previously. Since the specification does not distinguish between the flame retardance of the various alternative fillers, and since ample motivation exists to maximize the filler concentration, the rejection is maintained in its entirety.

Response to Arguments

4. Applicant's arguments filed 09/04/02 have been fully considered but they are not persuasive. The Fry reference does teach using all calcium carbonate as filler, but this is only the preferred embodiment. Since the claim is directed to a composition and not an article, the presence or absence of a PVC containing wearlayer is immaterial. The cited paragraph of the specification, on page 5, lines 21-28, shows all fillers reacting, not only the ATH. Separate disclosure of the method of adding high concentrations of ATH is shown by the secondary reference. However, were applicants willing to incorporate the numerical value of the LOI into the claim, accompanied by experimental proof, that calcium carbonate filled polymers do not achieve the claimed LOI, the examiner would withdraw the obviousness rejection, over the cited prior art.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
